INTRODUCTORY BRIEF

The Local Government Unit of Loon, Province of Bohol, envisions a peaceful town whose economic growth is anchored on agriculture, trading, ecotourism and people empowerment through shared and service-oriented governance.

In realizing its vision the LGU of Loon makes every effort to create a tourist and business-friendly environment by sustainably managing the town's resources and heritage while promoting peace, health and prosperity.

The devastating 7.2-magnitude earthquake that shook Bohol and neighboring provinces on October 15, 2013 resulted in, among others, the uplift of a portion of the intertidal zone within the municipal waters of Loon, from Song-on on the South up to Canhangdon Occidental on the north with an area of 417 hectares.

For various reasons, the uplifted coastal zone has become an object of interest of the local and national governments, community members, the academe, scientists, land-use planners, and private individuals.

There is a need to protect the geological and ecological site and enhance the public's awareness of its scientific and socio-cultural significance.

Being an unexpected addition to the mainland of Loon and only through which access to the municipal waters is possible, it is of utmost concern for the LGU to develop the area for what it is most suited with due consideration to environmental protection and conservations; development of sustainable livelihood; promotion of cultural heritage; and enhancement of people's creativity.

AN ORDINANCE ESTABLISHING THE COASTAL GEOMORPHIC CONSERVATION AND TOURISM PARK OF THE UPLIFTED INTERTIDAL ZONE OF THE MUNICIPALITY OF LOON, PROVINCE OF BOHOL, OTHERWISE KNOWN AS “THE LUIZ ORDINANCE”, AMENDING FOR THIS PURPOSE MUNICIPAL ORDINANCE NO. 14-003, SERIES OF 20014

Be it enacted by the 14th Sangguniang Bayan of Loon, Bohol in session duly assembled:

SECTION 1. ESTABLISHMENT OF THE COASTAL GEOMORPHIC CONSERVATION AND TOURISM PARK. There shall be established a Coastal Geomorphic Conservation and Tourism Park at the uplifted intertidal zone of the Municipality of Loon, Province of Bohol.

SECTION 2. DEFINITION OF TERMS. The following terms, as mentioned in this ordinance, are hereby defined:

- 2.a. Intertidal Zone – also known as foreshore and seashore and sometimes referred to as the littoral zone, is the area that is above water at low tide and under water at high tide. In other words, it is the area between low tide and high tide marks
- 2.b. Geomorphic – relating to the form of the landscape and other natural features of the earth’s surface
- 2.c. Mangrove areas – a forest or dense thicket of tropical evergreen trees or shrubs having stilt-like intertwining aerial or prop roots that grow below the highest tide levels in swampy areas
- 2.d. Highest high tide – the tide at its fullest, when the water reaches its highest level at a certain time of the year

SECTION 3. DETERMINATION OF BOUNDARIES AND TOTAL AREA.

3.1) The boundaries of the Loon Coastal Geomorphic Conservation Park shall consist of the following:

- 3.a. Loon-Maribojoc municipal boundary following a straight line from the mainland boundary to the municipal waters boundary;
- 3.b. Canhangdon Occidental-Sandingan Island boundary; and
- 3.c. Landward to seaward, from the pre-earthquake original shoreline including the mangrove areas up to twenty (20) meters from the sea water’s edge taken during the highest high tide.

3.2) The official Department of Environment and Natural Resources (DENR) survey defining the boundaries and areas of the Loon Coastal Geomorphic Conservation and Tourism Park shall be adopted, as reflected in Tables 1,2, and 4,Lot Description Survey No. SK-07-00180 (Date Surveyed: March 6-7, 2014), viz:

- 1. Lot 2, Public Land with 970, 380 square meters
